Sani Jon® Model SJHDS 450

Advantage Four: Hand Washing Options

The Internal Sink drains into the SJHD 450 holding tank replacing the urinal. If replacing the urinal is not a desired option, then the same internal sink can be attached to the exterior side or rear of the portable toilet. All of the internal sinks drain into the holding tank.

If an independent hand wash system is preferred, we manufacture the Model FPHW 4545 large capacity full service dual hand wash station (see below).

Internal Sink 12 gallon (36 liter) - includes Soap and Paper Towel Dispensers

The Model FPHW 4545 Dual Hand Wash Station is a stand-alone, self contained, with a 45 gallon (180 liter) fresh water supply. The dual hand wash station includes paper towel & soap dispensers and a wastebasket.
